REVOO TATTOO REMOVER

is a cosmetics line developed especially for tattoo fans. It includes Remover, cleaning foam without detergents, and a home care cream.

REVOO REMOVER is dedicated to tattoo artists and trainers of this art of body decoration. This innovative gel is designed to remove ink from the skin without burning the tissue. Its unique composition allows extracting any color without the use of a laser. Specially developed composition and application techniques allow you to get maximum satisfaction without leaving scars.

This product is available only for professionals.

The logo for REVOO is displayed in a bold, sans-serif font. The letters 'R', 'E', and 'V' are dark grey, while the 'O's are a lighter shade of grey. A registered trademark symbol (®) is located to the right of the second 'O'.

REVOO®

PROBLEM: | unsuccessful and disfiguring tattoo, inflammatory processes after getting a tattoo, skin itching and burning

GOAL: | pigment lightening and removing, perfect home care after treatment, quick wound healing

REVOO REMOVER

REVOO REMOVER

is dedicated to tattoo artists and trainers of this art of body decoration. This innovative gel is designed to remove ink from the skin without burning the tissue. Its unique composition allows extracting any color without the use of a laser. Specially developed composition and application techniques allow you to get maximum satisfaction without leaving scars. It is used for both: immediate correction of fresh mistakes and old tattoos brightening. It is a safe way to get rid of pigment from every area of the body, even on the day of the procedure. This product, when properly used, does not pose a risk of scarring. It does not contain acids, nor is alkaline – so it does not burn tissues. It is safe for use in very sensitive areas. Perfectly removes shades that traditional lasers cannot cope with.

REVOO REMOVER is a gel in a 30 ml glass container with a pipette guaranteeing sterile use.

This product is for professional use only – the manual of application is included in the form of a video when purchasing the product.

RECOVERY CREAM

Capacity: 10 g

This product, highly saturated with regenerating and nourishing the skin ingredients, recommended for daily care after tattooing, ensures very fast wound healing, protects the skin against harmful external factors, and soothes irritations. Has antibacterial and soothing irritation function. The big advantage of the cream is its efficient texture, easy absorption, and no greasy film after application. The cream has a lemon scent. The composition includes:

- ▶ **ultra-low molecular weight hyaluronic acid** - thanks to micronization it easily penetrates into the deeper layers of the skin, effectively moisturizing it;
- ▶ **shea butter** - is rich in vitamins A and E which make the skin smooth, well moisturized, and covered with a protective lipid layer after its application. The substances contained in the butter protect and strengthen the cellular cement of the stratum corneum of the skin, which improves its elasticity. Karite is a natural solar filter (but with a low UV radiation suppression factor). Does not cause allergies;
- ▶ **sweet almond oil** - moisturizes and smoothes the skin. It contains vitamin A, as well as vitamins D and E. In addition, it also has unsaturated fatty acids: oleic and linoleic;
- ▶ **hemp oil** - Extremely valuable vegetable oil contains a balanced ratio of valuable unsaturated fatty acids (EFAs) and natural antioxidants, does not cause allergies and penetrates deep into the skin;
- ▶ **manuka honey** - has scientifically proven antibacterial, antiseptic, anti-fungal, anti-viral, anti-inflammatory effects;

This product has no petroleum and colour components nor parabens. The product comes in packs of 10 g.

CUSTOMER
INDIVIDUAL

BEAUTY SALON

FOAM CLEANSER

Capacity: 30 ml

Product made to be used after tattooing, strongly soothing, regenerating, and cleansing. Does not cause irritation, does not disturb the hydrophilic-lipid balance. Also suitable for people with sensitive skin. It inhibits inflammatory processes, accelerates the healing process, relieves itching and burning. It does not contain detergents. The soap has a grape smell. The composition includes:

- ▶ **linden flower hydrolat** - regenerates and moisturizes the skin, relieves itching and burning, refreshes and tones;
- ▶ **D-panthenol** - nourishes the skin, accelerates cell division of skin cells, soothes irritated and red skin;
- ▶ **aloe vera** - has a disinfecting, anti-inflammatory, and astringent effect. It smoothes and firms the skin, regenerates it, maintains humidity, soothing properties, and also sunscreen filtering properties;
- ▶ **urea** - moisturizes, facilitates water binding by keratin and softens the epidermis, supports its regeneration.

The product is vegan, it is packed into 30 ml bottles with a foam pump. Shake before use.

PMU Professional Organic Cosmetics PMU Professional

is a product line of 100% organic cosmetics produced in Poland. All PMU Professional original formulas have been refined to meet, and even exceed, the expectations of the most demanding customers. Each product consists of 100% all-natural, carefully-selected ingredients of the highest quality. Every single PMU Professional product is thoroughly tested in the laboratory and retains CPNP (Cosmetics Products Notification Portal) registration throughout the entire European Union, adhering to the highest standards. All products are completely safe and no PMU Professional Product is tested on animals.

PROFESSIONAL

PMU

REMOVER

PMU PROFESSIONAL SILVER | GOLD

The first product that PMU Professional has the pleasure of introducing is the PMU Professional Remover. This thoughtfully prepared formula targets pmu technicians and permanent make-up trainers. Used to repair fresh mistakes and brighten old, healed pigmentation. The Remover is an ideal alternative to the ND YAG Q-switch laser. This gel allows one to safely remove pigment from any areas of the face (including even eyelids or full lips). Our natural ingredients do not cause any allergic reactions nor present any risk of scarring. Advantages of the PMU Professional Remover are: contains no acids; the highest-quality natural ingredients; safely applicable to sensitive areas (eyelids, lips); highly effective, providing maximum security regardless of pigment colour (ideal for camouflage removal); no black or yellow scabs during the healing process; possibility to perform treatment every 4 weeks; pigmentation can be done one month after the last removal treatment; tested and registered.

PMU PROFESSIONAL Remover perfectly copes with „tattoo-kind“ pigments, in which formulation you can find resin and polymers. Pmu Remover is in the form of a gel which helps to achieve the best possible re-

sults. The healing process is being characterized by the lack of dark and heavy scabs, which greatly improves the client's comfort. Thanks to the special composition of the product, treatments can be performed at intervals of 4/6 weeks. PMU PROFESSIONAL is offered in a 5 ml and 30 ml glass bottle with a pipette. The product is on sale only after completing the training.

Skin + ®

PROBLEM: | signs of aging, wrinkles, flabby skin,
lacking firmness and moisture

GOAL: | preventing the first signs of aging,
moisturizing

PMU PROFESSIONAL SKIN+

A series of products to be used both during cosmetic procedures in professional treatments and at home. An effective formula to combat aging skin, quickly eliminating wrinkles and perfectly moisturizing, creating an illuminating effect of the skin. The specially developed formula allows one to achieve spectacular results after the first treatment. Skin+ cosmetics are dedicated to the care of flabby skin, lacking firmness and moisture, as well as to prevent the first effects of aging. All products within this series are vegan.

AMPOULES

Set: 5 pieces

Capacity: 2 ml each

Rich-component Ampoules are intended for professional treatments, effectively supporting the fight against wrinkles protecting and moisturizing the skin. This cosmetic is ideal when working with dermapen (Derma Needling) and ultrasounds, as well as for massaging into the skin after treatments such as microdermabrasion, oxybrase, or oxygen infusion.

In the composition you will find:

- ▶ **ultra-low molecular weight hyaluronic acid** - due to micronization it easily penetrates into the deeper layers of the skin, effectively moisturizing it;
- ▶ **plant active stem cells** that protect human skin stem cells;
- ▶ **oligopeptide 24**, which is responsible for hydration, elasticity, and freshness of the skin, and delay aging.

In combination with serum and cream from the PMU PROFESSIONAL SKIN+ care line, it allows you to achieve amazing results after only one treatment. The ampoules are also available as a kit with a roller for home care treatment.

BEAUTY SALON

SKIN+ SERUM

Capacity: 30 ml

The product is highly saturated with rejuvenating and firming ingredients. Recommended for daily home care and professional treatments as well. The composition includes:

- ▶ **ultra-low molecular weight hyaluronic acid**, which is responsible for skin tension and elasticity and guarantees delay of visible aging effects;
- ▶ **stem cells** that stimulate collagen and elastin fibers to rebuild;
- ▶ **oligopeptide 24** reduces wrinkles by stimulating skin matrix renewal;
- ▶ **coenzyme Q10** which protects the skin against wrinkles;
- ▶ **vitamin E** nourishes, regenerates and moisturizes;
- ▶ **grape seed extract** that protects and strengthens the skin;
- ▶ **chaste tree extract**, which increases the elasticity and density of the skin and has anti-wrinkle effects and also stimulates the production of β -endorphin and DHEA;
- ▶ **marine origin oligosaccharide**, modelling the face contour. This component restores the skin's density, firmness, and elasticity due to the three-way action on the extracellular matrix:
 1. stimulates the synthesis of collagen and hyaluronic acid, i.e. the main building materials of the matrix, thereby positively affecting its growth,
 2. increases the synthesis of RHAMM protein, thanks to which the matrix maintains its characteristic structure,
 3. prevents matrix degradation by inhibiting the synthesis of collagen-destroying enzymes.

Visible anti-wrinkle effect and skin thickening can be noted after just 1 month of use.

The serum is odourless and has no colouring ingredients, no parfum, or petroleum ingredients. It is recommended to be used twice a day in combination with cream.

CUSTOMER
INDIVIDUAL

BEAUTY SALON

SKIN+ CREAM

Capacity: 50 ml

This vegan product does not contain petroleum derivatives and colouring. The cream is intended for use during professional procedures and for daily home care use as well. It absorbs perfectly, does not leave a greasy film, can be used under makeup. In the composition, you can find ingredients that improve the freshness and elasticity of the skin and delay the aging process as well as substances that help maintain a natural degree of hydration and stimulate the skin's auto-regeneration processes.

- ▶ **baobab fruit pulp extract** - is an ingredient which brings an immediate anti-wrinkle and brightening effect, its effectiveness has been confirmed in clinical trials;
- ▶ **ultra-low molecular weight hyaluronic acid** - is responsible for the skin's ability to bind water, and thus its firmness and elasticity - simply beautiful look;
- ▶ **vegan stem cells** - effectively fight skin aging processes, have an anti-wrinkle effect at the cellular level, even in hard-to-remove local wrinkles, e.g., around the eyes;
- ▶ **oligopeptide 24** increases cellular renewal;
- ▶ **opuntia Ficus-indica extract** - the use of this substance helps maintain a natural degree of hydration and stimulates the skin's self-regeneration processes.

The cream is odourless. It is recommended to be used in conjunction with the serum, twice a day on cleansed and dried skin.

HOME CARE ROLLER SET

A complete kit for self-microneedle mesotherapy treatment at home. Micro-needling is a procedure involving the stimulation of natural skin renewal processes. It is an effective way to stimulate the skin to produce collagen fibers and elastin. Microneedling treatment is responsible for skin firmness and elasticity. Due to the controlled perforation of the epidermis, the treatment will increase the absorption of active substances from cosmetics, providing a better therapeutic effect. Due to the stimulation of natural regenerative processes, the skin will be more tense, firm, better nourished, and wrinkles will be reduced.

The set comes in two options: small and large.

The **small set** includes:

- ▶ treatment ampoule with a capacity of 2 ml,
- ▶ single-use roller with 0.25 mm needles,
- ▶ 10 ml toner,
- ▶ cream with a capacity of 5 g,
- ▶ 5 g serum,

The **large set** includes:

- ▶ 4 treatment ampoules with a capacity of 2ml each,
- ▶ 4 single-use rollers with 0.25 mm needles,
- ▶ 2 toners with a capacity of 10 ml,
- ▶ 2 creams with a capacity of 5 g,
- ▶ 2 serums with a capacity of 5 g.

The kit also includes a full manual and treatment procedure. The length of the needles guarantees a very safe and controlled way to perform the procedure at home.

This set is a perfect form of maintaining the effects of professional procedures as well as a sensational idea as a gift for a loved one.

PMU

Acne & Spots ℞®

PROBLEM: | discoloration, skin imperfections,
scars and stretch marks

GOAL: | combating acne, pimples, discoloration,
smoothing scars and stretch marks

PMU PROFESSIONAL ACNE&SPOTS

This cosmetic line is designed to fight discoloration and skin imperfections of various origin as well as scars and stretch marks. Thanks to the care content of acids the products are perfectly safe. Cosmetics of this line will help in the fight against acne, skin blemishes, blackheads, but also hormonal or sun discolorations which are very difficult to remove. Using a specially developed skin needling technique, you can effectively make the scars, burn scars, acne scars and stretch marks more elastic, flexible and less visible. It is also a very good form of the fight against rosacea acne and Demodex.

AMPOULE

Set: 5 pieces

Capacity: 2 ml each

The ampoules are created for professional procedures, are suitable for working with micro punctures (dermapen, skin needling), ultrasounds, oxygen infusion, and, e.g. after microdermabrasion. It does not contain acids, it allows to effectively fight discoloration, including deep ones, acne, pimples, and scars. In their composition we can find:

- ▶ **stem cells** that stimulate collagen and elastin fibers to rebuild;
- ▶ **ultra-low molecule weight hyaluronic acid**, which is responsible for the skin's ability to bind water, and thus its firmness, elasticity;
- ▶ **Swiss pine extract**, which removes local skin discoloration, brightens the skin, evens skin tone, significantly reduces age spots and increases the overall uniformity of skin colour;
- ▶ **vitamin C**, its stable form, has a huge impact on the synthesis of collagen and elastin in the skin and its brightening;
- ▶ **L-arginine**, which is a natural amino acid, building block. It moisturizes not only the epidermis but all deeper layers of the skin, thanks to arginase, which converts arginine to urea at the cellular level;
- ▶ **azeloglycine** - a derivative of azelaic acid. It brightens discoloration (with melasma, pigment spots, and post-inflammatory discolorations), works anti-acne, improves skin elasticity and hydration, which gives the skin softness. It has anti-blackhead, antibacterial and anti-inflammatory effects;
- ▶ **oligopeptide 24** reduces wrinkles by stimulating skin matrix renewal.

DAILY FACE CREAM

Capacity: 50 ml

The perfect home care cream, brightening, antiseptic and anti-acne, effectively regulates sebum production. Recommended for daily use in the autumn and winter. Ideally suited as a home care supporting professional exfoliation treatments.

The product contains a mixture of four acids:

- ▶ **azelaic acid** - inhibits the production of free oxygen radicals, which cause inflammation and reduces erythema in rosacea acne;
- ▶ **kojic acid** - brightens discoloration;
- ▶ **shikimic acid** is antibacterial - it inhibits the growth of bacteria responsible for inflammation and unblocks sebaceous glands;
- ▶ **lactic acid**, which affects the moisturize and hydration of the skin and restores the skin's natural reaction;
- ▶ **vitamin B3** - helps fight acne, pimples, redness, roughness and inflammation;
- ▶ **azeloglycine** - brightens discoloration (with melasma, chasm and other pigment spots and post-inflammatory discolorations), has anti-acne properties, improves skin elasticity and hydration, which gives the skin softness, has anti-blackhead, antibacterial and anti-inflammatory effects;
- ▶ **sweet almond oil**, which soothes and accelerates the process of cell renewal;
- ▶ **small - molecular hyaluronic acid**, which is responsible for the skin's ability to bind water, and thus its firmness, elasticity.

The cream comes in two versions that differ in concentration of azelaic acid. There are: SOFT (8%) and STRONG (16%). It has 50 ml airless type packaging.

Earth®

PROBLEM: | sensitive skin and prone to allergies

GOAL: | regeneration, calming burning, and itchy skin

PHU PROFESSIONAL EARTH

Cosmetics from the Earth line are specially designed for vascular, sensitive, and prone to allergies skin. The whole series is based on thermal water obtained from a depth of 2500 m with its initial temperature of 72 Celsius degrees. This water contains sulfides, silica, potassium, calcium, magnesium, and ferrum. The enormity of soothing and regenerating ingredients straight from the ground will calm down the skin and effectively support regenerative processes.

AMPOULE

Set: 5 pieces

Capacity: 2 ml each

The ampoule for the professional procedures strongly regenerates and strengthens the skin and vessels. This cosmetic is ideal when working with micro punctures (dermapen, skin needling), ultrasound, and also after microdermabrasion, oxygen infusion, and using cavitation peeling. In its composition you can find:

- ▶ **lactoferrin** - it is a protein with antibacterial properties. It also has antiviral, antifungal, antiparasitic, anti-inflammatory, and anti-cancer properties;
- ▶ **sodium succinate** which is responsible for skin regeneration and reconstruction;
- ▶ **vitamin B3** works anti-acne, and also reduces water loss and regulates regeneration processes;
- ▶ **astaxanthin** - is a natural sunscreen and as such delays the photo-aging process, protects against DNA damage, reduces melanin production by 40%, which prevents freckles and discoloration;
- ▶ **azeloglycine** reduces discoloration, evens skin tone, and empowers skin elasticity;
- ▶ **dragon's blood** - a resin valued for centuries for its sensational antioxidant and regenerative properties;
- ▶ **vitamin C** provides a young look and strengthens the skin's resistance, is a natural protective filter.

HOME CARE ROLLER SET

A complete kit for self-microneedle mesotherapy treatment at home. Micro needling is a procedure involving the stimulation of natural skin renewal processes. It is an effective way to stimulate the skin to produce collagen fibers and elastin. Skin needling treatment is responsible for skin firmness and elasticity. Thanks to the controlled perforation of the epidermis, the treatment will increase the absorption of active substances from cosmetics, providing a better therapeutic effect. Thanks to the stimulation of natural regenerative processes, the skin will be more tense, firm, better nourished, and wrinkles will be reduced.

The set comes in two options: small and large.

The **small set** includes:

- ▶ treatment ampoule with a capacity of 2 ml,
- ▶ single-use roller with 0.25 mm needles,
- ▶ 10 ml toner,
- ▶ cream with a capacity of 5 g,
- ▶ 5 g serum.

The **large set** includes:

- ▶ 4 treatment ampoules with a capacity of 2 ml each,
- ▶ 4 single-use rollers with 0.25 mm needles,
- ▶ 2 toners with a capacity of 10 ml,
- ▶ 2 creams with a capacity of 5 g,
- ▶ 2 serum with a capacity of 5 g.

The kit also includes a full manual and treatment procedure. The length of the needles guarantees a very safe and controlled way to perform the procedure at home.

This set is an perfect form of maintaining the effects of professional procedures as well as a sensational idea as a gift for a loved person.

Lash & Hair  ®

PROBLEM: | Problem: loss of hair, eyebrows,
and eyelashes

GOAL: | nourishing, strengthening, and caring for hair,
eyebrows, and eyelashes

PMU PROFESSIONAL LASH&HAIR

This is a group of cosmetics dedicated to nutrition, strengthen, and care of hair, eyebrows, and eyelashes. The products were formulated to stop hair loss, nourish them, fight dandruff, and relieve scalp itching. The two-component eyebrow and eyelash serum nourishes and visibly thickens them. Cosmetics of this line are based on oils and herbal extracts. They do not contain bimatoprost or prostaglandin, the product is completely natural and safe to use.

LASH & HAIR EYEBROW STYLING GEL

Capacity: 9 ml

This cosmetic is the perfect solution for people who follow new trends. Thanks to our product, you will not only give your eyebrows the desired look but also give them the necessary nutrients. From now on, your eyebrows will be denser, thicker, and stronger!

Lash & Hair gel is a real nutritional bomb. In the composition, you can find herbal extracts, panthenol, and silicon.

Specially designed packaging allows you to use 3 different brushes to make the application and styling a pure pleasure.

It is recommended to use it every day to finish make-up.

EYEBROW AND EYELASH SERUM

Capacity: 2 × 9 ml

Lash & Hair serum is a modern way of eye care. The strength of natural ingredients will make your eyelashes longer and thicker and your eyebrows thicker and stronger. Daily care consists of two cosmetics:

Step 1 is a mixture of herbs, silicon and peptides - it should be applied to clean and dried eyebrow and eyelash lines.

Step 2 is a high-component oils - it should be used after the herb mixture has been completely absorbed. Using a silicone mascara brush, rub the product into the eyebrows (combing them) and then it is recommended to spread the product over the entire length of the eyelashes.

Lash & Hair serum is also characterized by specially designed handy packaging with double-sided applicators that facilitate the use of the product. The total volume of the product is as much as 18 ml.

It is recommended to apply daily in the evening, after in-depth eye makeup removal.
